

Team Adventure Seek

Team Adventure Seek is our version of the popular “geocaching,” combining Global Positioning System (GPS) technology with hiking, skiing or snowshoeing all coordinated into a business context.

Locations:

- Sundance Resort
- Rendezvous Ranch
- Deer Valley Resort
- The Canyons
- Soldier
- Snowbird
- Utah Olympic Park
- Snow Basin
- Soldier Hollow
- Let us build a course for you!

Group Size: 10-150 guests

Team Sizes: 2-5 people

Length: 2.5-3 hours

Details:

Teams of 2-5 are taught how to operate GPS units. Our mountain and urban courses contain several hidden camps, each assigned with a dollar value based on how difficult they are to find.

Teams choose their own adventure to achieve their financial goals, compete against other teams and negotiate competition vs. collaboration as we compare you to other corporations who have been through our courses.

Benefits:

Successful teams will plan, communicate, cooperate, develop leaders, assess risks, transfer knowledge and solve problems throughout their adventure.

Successful companies will require their teams to work together.

The adventure “descent”/discussion focuses on what was learned, what teams could have done better, how companies could improve their performance and any “take homes” that can be used for their business.

At Park City Teamworks, we guide business teams on Wilderness Adventures to improve performance and encourage organizational change. The outdoor adventures you experience will allow you to explore new boundaries and unleash your team's creativity. We are confident your growth solutions lie within your team and can be released when you experience any of our business adventures.

Adventure Inclusions:
