

## Circle of Life

Circle of Life challenges small management teams to solve the seemingly simple task of building a traditional Native American shelter at the most spectacular settings in the Wasatch.

### Locations:

- Deer Valley Resort
- Rendezvous Ranch
- Sundance
- The Canyons
- Snowbird Resort
- The Homestead
- Wasatch and Uinta Mountains

**Group Size:** 5-70 people

**Team Sizes:** 7-10 people

**Length:** 2-3 hours

### Details:

Faced with limited instruction, 17-foot Lodge Pine poles and a 75 lb. canvas—teamwork, creativity, leadership, collaboration and communication become essential for this timed event.

Circle of Life can be customized to give teams different resources (photo, core instructions or even a full manual) to challenge teams on their creativity, best practices and often force competing teams to work together.

### Benefits:

All of our workshop adventures include a “descent” with guides and facilitators to explore opportunities and barriers, and review how teams/companies went about their adventure challenges.

Our outdoor adventures quickly expose team dynamics and provide an incredible platform for business and learning workshops.

Cap off the adventure in your tipi with a lunch/dinner or perhaps even a creative brainstorming session.

At Park City Teamworks, we guide business teams on Wilderness Adventures to improve performance and encourage organizational change. The outdoor adventures you experience will allow you to explore new boundaries and unleash your team's creativity. We are confident your growth solutions lie within your team and can be released when you experience any of our business adventures.
