

## Explore Park City/Urban Adventure

Our mountain adventure race brought down to historic Main Street, Park City, Utah!

### Locations:

- Park City, UT
  - Salt Lake City, UT
  - San Francisco, CA
  - Seattle, WA
- Let us build an Urban Adventure Course at a favorite park or Metropolitan area near you!

**Group Size:** 15-50 people

**Team Sizes:** 4-7 people

**Length:** 2-3 hours

### Details:

Teams of 4-6 compete for revenue as they navigate our urban course with deep mining tradition and recent Olympic history.

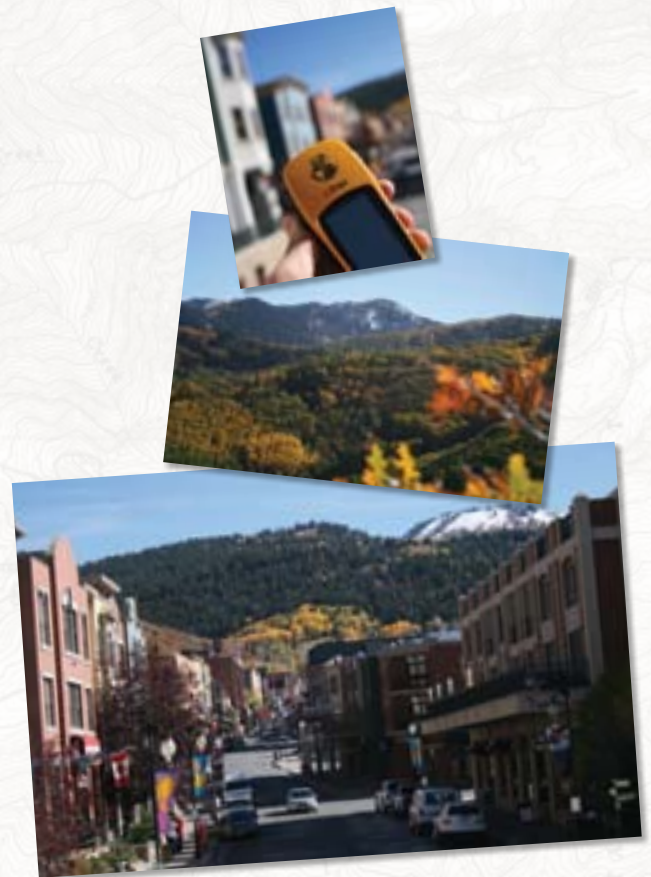

Successful teams accumulate revenue by finding camps via GPS technology units and completing a mix of unique physical and mental challenges with bonuses and penalties.

### Benefits:

Companies negotiate competition vs. collaboration, solve group related problems, face communication challenges, decide best practices, assess risk and share leadership. Not only are you competing amongst one another, we also compare your performance to many other organizations who have been through our course(s).

For business-focused groups, a basecamp will be set up at a local pub or restaurant and will act as the hub for the event. A professionally-led debrief will be held at basecamp after the completion of Explore Park City.

Each team will make a short presentation followed by an open discussion of the learning processes of the adventure experience.

At Park City Teamworks, we guide business teams on Wilderness Adventures to improve performance and encourage organizational change. The outdoor adventures you experience will allow you to explore new boundaries and unleash your team's creativity. We are confident your growth solutions lie within your team and can be released when you experience any of our business adventures.
