

# ALPINE DISCOVERY / ADVENTURE RACE

Our most popular business adventure combining competition and collaboration!

## DETAILS

Teams of 2-5 are taught how to operate GPS units. Our mountain and urban courses contain several hidden camps, each assigned with a dollar value based on how difficult they are to find.

Teams choose their own adventure to achieve their financial goals, compete against other teams and negotiate competition vs. collaboration as we compare you to other corporations who have been through our courses.

### LOCATIONS:

- Sundance Resort
- Deer Valley Resort
- Red Rocks (Las Vegas)
- Moab, UT
- Utah Olympic Park
- Pacific Northwest
- Let us build a course near you!

GROUP SIZE: 15-150+

TEAM SIZE: 4-6

LENGTH: 4-5 HOURS

## BENEFITS

Successful teams will plan, communicate, cooperate, develop leaders, and assess risks, transfer knowledge and solve problems throughout the adventure. Organizations negotiate competition vs. cooperation to achieve goals.

Races can be exclusively customized for business simulations where teams work within a budget to purchase supplies and gear, and compete for revenue while collaborating for overall profit goals.

Adventure guides also act as team facilitators to assist groups with safety and observe team dynamics for debriefing sessions to explore strengths, weaknesses, and business "take-homes".

At Park City Teamworks, we guide business teams on wilderness adventures to improve performance and encourage organizational change.

The outdoor adventures you experience will allow you to explore new boundaries and unleash your team's creativity. We are confident your growth solutions lie within your team and can be released when you experience any of our business adventures.
