

TOMAHAWK / AXE THROWING

Tomahawks originated from the Native American Indians who generally used them for hunting, chopping, or as a weapon. Throwing axes were used during the Middle Ages by foot soldiers and occasionally knights. We honor these traditions and people with an Axeperience you won't soon forget.

DETAILS

Teams of 2-5 are given one throwing axe kit and are instructed in the process of constructing an axe that can successfully be thrown at a target. Teams will compete against each other taking turns throwing at targets and accumulating points. Successful teams will plan, communicate, co-operate, assess risks and solve complex problems throughout the adventure.

LOCATIONS:

- Deer Valley
- Park City Mountain
- Snowbird
- Soldier Hollow
- Let us build an adventure at a park near you!

GROUP SIZE: 6-25

TEAM SIZE: 2-5

LENGTH: 2-3 HOURS

BENEFITS

The adventure can be exclusively customized for those teams focusing on a certain target. Yet perfect for any business trying to incorporate outdoor fun with thoughtful business driven metaphors. The "descent" / de-brief discussion focuses on what was learned, what teams could have done better, how companies could improve their performance and any "take homes" that can be used for their business.

At Park City Teamworks, we guide business teams on wilderness adventures to improve performance and encourage organizational change.

The outdoor adventures you experience will allow you to explore new boundaries and unleash your team's creativity. We are confident your growth solutions lie within your team and can be released when you experience any of our business adventures.
